25 YEAR RE-REVIEW

15 November 1965

**MEMORANDUM FOR: Deputy Director for Science and Technology**

Bud:

Please note Colonel White's memorandum to the Director which is attached to your 29 October memorandum regarding BW/CW detection.

Believe you will want to undertake explorations with the Pentagon to see what might be done and then to keep the Director and Executive Director informed of what develops. If at such time you need an expression of DCI interest in dealing with the Pentagon, give a holler.

This is merely a suggestion; you may have other ideas. Could you please let the Executive Director know what you intend to do next?
